## SHERIFF FARLEY'S FEES.

THE ASSEMBLY DOESN'T CARE WHAT HIS OFFICE IS WORTH.

A Bill to Make Him Report to Kings County's Treasurer Beaten-Veto of the Bill to Add Mr. Van Cott to the Aqueduct Com-mission-Another Bill for Post Sellers. ALBANY, March 12 .- This is an off year for

reform bills. The temper of the majority is his bill to make Sheriff Parley of Brooklyn keep an account of his receipts and expenses and report monthly to the County Treasurer came up for final consideration. The chamber was full of New Yorkers and Brooklynites, all apparently intent on defeating the measure. Anthony Barrett led the Brooklyn men, and from New York were seen Barney Biglin. Johnny O'Brien, Bob McCord, and a few smaller fry. Gen. Heath spoke for his bill, and so did Burchard Taylor, but Mr. Church of Queens opposed it on the ground that it par-took of the nature of special legislation. The New York and Brooklyn Democrats and some

Queens opposed it on the ground that it partook of the nature of special legislation. The New York and Brooklyn Democrate and some of the Hopublicans flow from seat to seat getting votes against the measure. There was more excitement and great disorder during the voting, which resulted in 67 against and 40 for the bill. Gen. Heath moved to reconsider the vote and lay the motion on the table. Speaker Erwin divided the motion, and the one to lay it on the table was lest. Then Gen. Husted moved that the motion to reconsider be post-poned until next Vedinesia, and it was carried by 55 to 55. Gen. Heath's bills salarying the Register and County Clerk of Kings passed.

There is a little story behind this bill respecting Kings county's Shriff. It had been rumored in Brooklyn that the Sheriff's fees amount to \$100,000 at year, and the last Sheriff's friends had, while not denying this, asserted that half this sum goes to the Democratic party fund. The Citizens' Lengue of Brooklyn, prior to last election, sought to commit the exadidates. Tanner and Farley, to a promise that if elected they would keep an account of their fees and perquisites in a book to be open to public inspection. The platforms of both the Hopath lican and Democratic county organizations in cluded pinks to the same effect, and Farley, with its terms. To-day's work in the Assembly shows that he has altered his mind. How the had been the party may be a summary of the platform of the bardward of the product of the country of the platform of the hands of Carporal Tainer, which had been the more than the health locard or any other branch of the Government. There is no change in the situation. As the Aqueliust Board has nothing to do with the party and the predecessor vetoed a similar bill last year, and there is no change in the situation. As the Aqueliust Board has nothing to do with the party and the product of the produc they would keep an account of their fees and perquisites in a book to be open to public inspection. The platforms of both the Republican and Democratic county organizations included planks to the same effect, and Fariey, fearing defeat at the hands of Corporal Tanner, announced his hearty willingness to comply with its terms. To-day's work in the Assembly shows that he has altered his mind.

Blue suits the fair hair and pink-and-white complexion of Senator Gibbs, and he never looked better than when he tied in a largel buttonhole the long blue ribbon taken from the parchment containing Gov. Hill's veito of the bill to put Corneel Van Cott among the Aqueduct Commissioners. The Gevernor says that his predecessor veloed a similar bill last year, and there is no change in the situation. As the Aqueduct Board has nothing to do with the distribution of water, there is no more reason why the Fire Department should be added than the Heath Board or any other branch of the Government. There is no reason for the bill except that it affords another piece for a public official. It would destroy the present balance in the Aqueduct Board between the tax paying element and the municipal authorities. "It could hardly have been expected that the bill would have been approved." says the Governor.

All the New York members presented petitions favoring the nassage of the Gibbs Freedom of Worship bill. Senator Halv's petition was almost as long as the front of The Six building, and contained the names of 3,000 Germans. The Judiciary Committee reported favorably the Gibbert Anti-dramamite bill.

Mr. Robb laid a fuse for future excitement by introducing a bill to provite that all salaries and expenses of the New York Police Department. This is a tardy result of the street cleaning investigation of 1881, which disclosed the fact that the folic beart and the names of 3,000 Germans. The Judiciary Committee reported favorably the Gibbert Anti-dramamite bill.

Mr. Robb has ittle hope that the bill of the capture of Estimate and Apportionme

concerned as debtor or creditor. The other bill requires that the consent of the Comptroller shall be requisite for all agreements entered into by any city officer for the purchase of any

note of any city oncer of the prohibit real estate.

Mr. Murphy introduced a bill to prohibit skating-rink proprietors admitting children under 14 years during school hours and after 9 o'clock at night, unless accompanied by parents or guardians. Mr. Lansing entered a bill the proposition of the property of the proposition of the property of the pr o'clock at night, unless accompanied by parents or guardians. Mr. Lansing entered a bill providing that railroads that have consolidated and formed a centinuous line shall be deemed one railroad. Mr. Daggett out in a bill prohibiting the dumping of sludge acid into Long Island Sound, and providing that Queens and Blohmod shall contribute to the \$10,000 required to supervise the Long Island shore.

Mr. Thomas, the Chenango Senator who put in the Arcade Railway bill yesterday, distinguished himself to-day by presenting a bill providing that in suits brought for demages for personal injuries the defendant may require the injured serson to submit to a physical examination by a physician chosen by the defendant. Refusal to conform to this shall entitle the plaintiff to a dismissal of suit, with costs. The last section provides that a compromise between the parties to the suit may be made without regard to any claim of attorneys except for taxable costs.

Prior to June 30, 1884, the Superintendent of Insurance required all insurance comeanies to file a seni-annual report of the condition of their affairs, and in a resolution presented by Senator Culien the Superintendent is asked to communicate to the Senate his reasons for discontinuing the requirement of semi-annual reports and to give the names of the companies that have neglected to report, as well as the names of those that have reported.

By Mr. McCann in the Assembly, and Mr. Kiernan in the Senate an interesting bill has been introduced to compel the Long Island Railroad to refund to Atlantic avenue property owners about \$100,000, with interest, given to the company on condition that it would not use steam on that avenue. The company has used steam on that avenue. The company has used steam but has not refunded the money.

Mr. Van Duzer of Chemung has introduced another bill to permit pool selling on race tracks.

## Gan. Sickles and the Excelsior Brigade.

A paper entitled "Leaves from My Diary" was read by Gen. Daniel E. Sickles before the Military Service Institution at Governor's Island, yesterday Gen. Sickles spoke of his experience in raising a brigade Gen. Sickles spoke of his experience in raising a brigade of United States volunteers at the beginning of the civil war, and of trouble between the New York State and Federal authorities in regard to the work. His camp at fixten Island, known as the Scott Camp, is said, was kept in order with difficulty. Gov. Morgan and the blate authorities endexowed, by all means in their pewer, to make the work a failure. Fresident Lincoln countenanced Gen. Sickles's operations. Finally the General obtained recruits from a number of different States. The brigade was called the Excision. The delay caused by this squabble, the speaker said, prevented State well-dirilled men from being present at the battle of Bull Bun.

"FRITZ" PROMISES TO STRAIGHTEN UP.

A Melodramatic Scene in the Police Court ALBANY, March 12 .- J. K. Emmet, the actor, was an attraction at the police court this morning. As has already been announced, "Fritz" has been on another spree, which began in Pittsburgh last week. He returned to Albany, March 12.—This is an off year for form bills. "It was the cold weather that drove me on this jamboree."

Capt. Davidson then entered and led Emmet down through the crowded hall to the Pearl atreet entrance. Some delay ensued before the caleche could be brought around, and when it arrived Emmet entered and took a seat beside his wife, and, with Detective Dwyer on his lap, was driven to the Emmet mansion. His wife had finally consented to his return home on his solemn promise to straighted up and refrain from further violence.

## A PUGILIST SUED FOR DIVORCE. Tom Kelly Accused by his Wife of Repeat-

edly Assaulting her with his Flots. St. Louis, March 12 .- Tom Kelly was made the defendant in a divorce suit filed to-day by nis wife, Cecilia F. Kelly. Tom Kelly is one of the widest known sporting characters and petition that they were married on Jan. 10. 1880, in this city, and lived together until Oct. 12, 1882, when she was compelled to leave him. Within one month after the marriage, she aleges. Tom struck her with his fist and then knocked her silly by a single blow. When sle
recovered she returned to her mother's house,
where she remained until he induced her to
return to him under promises of better treatment. Within another short month he went at

one of his sledge-hammer blows. This was in
1882, and on Oct. 9 of that year she instituted
a suit for divorce, which she subsequently dismissed upon the earnest solicitation of Tom
and his Irlends. When she next returned to
him he said he was sorry he had not kept the
"Dutch woman" who was living with him, and
thereupon proceeded to do her up again. Three
more assaults are alleged, one in August, 1884,
one in Docember, 1884, and the last in February, 1885. She then took final leave of Tom

## The Engiorn Hase Ball Longue.

The Eastern Base Ball League met in Phila-delphia yesterday to arrange a schedule for the coming season, and for the consideration of other business. It was decided to place a ciub in Baltimore, notwithstandwas decided to place a cinb in Baltimore, notwithstanding the objection of Manager Barnie of the Baltimore American Association Glub. They claim that the principle involved is the same as that in the case of the Lucas League Club, which has recently been organized at St. Louis.

Currie of Philadelphia, Quinn of Brockiyn, Holland of Reading, and Taylor of Wimington were appointed official unpures at a salary of \$160 a month. The season's schedule had not been completed at a late hour last night, and may possibly not be arranged before to day. It has been decided, however, that the championanip games shall open in the Nouthern cities on April 20.

The Jersey CitysClub of the Eastern League has engaged six men this week, and expects to complete the nine by Monday next.

## Mitchell Wanted Cash, Not Glory.

Mitchell Wanted Cash, Not Glory.

Alf Greenfield did not appear yesterday at Steve Taylor's benefit, at Harry Hill's. He was in Chicago. It was announced that Mitchell would wind up with Taylor for a \$100 purse. Then it was announced that only \$50 had been raised, and that Mitchell would not spar. He came on the stage, with hat and cane in hand, and, leading over the ropes, said:

"I came here interly to see Greenfield spar. When I was asked to spar with Taylor for the \$100 purse I said yes, I would; but when I got into the dressing room to strip I was informed that the purse was only \$50. I am downing for money, and not for glory. I am willing to stand to my agreement, but I will not spar for less than the purse of the strip is the strip of the strip is was the strip of the strip of the strip of the strip is the strip of the Harry Hill offered to contribute \$10 toward making up the extra \$50, but Police Capt. Heresy of Harvard Medical Students. Boston, March 12.-The students at Harvard are still far ahead of the faculty in their defiance of the traditions of college life and curriculum. A large num-ber of students in the medical school have been suilty of an act of heresy that has set their professors by the cars. They have combined in a request to a prominent member of the homeopathic school inviting him to deliver hefore them a series of lectures upon the theory and practice of homeopathy. It is needless to say that the old-acheol professors refused to allow the lectures to be given in the college building, and they will be delivered in an outside hall.

COLUMBUS, Ohio, March 12.-Fifteen hundred people witnessed a soft-glove contest at the City Hall this evening, between Bob Farrell of New York and Tom this asseming between Bob Farrell of New York and Your Hammond of England. Farrell was declared the winner in the third round. Hammond being groupy and return to come to time. The excitement was great at the close part of the speciators rushing on the stage, and the no-lice having difficulty to restore order and protect the contestants. Farrell's encouse is attributed to his gen-eralship in the fight.

This second act stands out distinctly as the most eventful and telling of the three which compose the opers.

A new light was thrown last evening upon the resources of the company and upon the admirable calibre of its stock in trade. A sense of disappointment followed the first discovery that neither Mr. Karl nor Mr. Whitney was in the cast, but their absence was afterward seen to be amply atoned for by the excellent singing and significant acting or Mr. W. H. Maedonald and Mr. Herndon Morsell, who took the chief roles. Mr. Maedonald especially was noticeable for a merry humor that gave great riquancy to his performance, and added much to the general enjoyableness of the play.

Abbe Britanine, a delightful specimen of pastor, slways helpful and sympathetic, was most worthily portrayed by Mr. George Froihingham. A fresh, sweet voice and pleasing style were found to be the characteristics of Miss Geraldine Ulmar, who took one of the principal parts. The whole performance moved amoothly and at the same time with life and spirit. Next week the programme changes constantly, and embraces besides the Mascot, "Fatinitza," Giroffe-Giroffa, "The Musketeers," and "Pinafore," and two operas of a more ancient order, the "Bohemian Girl," and "Fra Disvolo."

## Second Concert of the Musurgia

The Musurgia, a male chorus society, conducted by William R. Chapman, gave its second concert at Chickering Hall last night. The organization numbers some fifty-four active members, and its subscription list is large. Considering that the organization was formed only as lately as the beginning of this season the chorus sings remarkably well. The conductor seems to be very thorough at rehear-sals, for due attention is paid to light and shade, and the work is done with confidence and precision. Among the compositions for shade, and the work is done with confidence and precision. Among the compositions for male chorus sung last night were Mendelsschn's "Waken Lord and Ladies Gav." Mosenthais "The Music of the Sea" and his "Salior's Song." Lisat's arrangement of Schubert's Great is Jehovah," and Lachner's "Evening Song." Of these the numbers by Mosenthai deserve special mention on account of both their merit as compositions and the manner of their performance. The composer is one of our highly-esteemed resident musicians. As a teacher he has done much to advance the cause of music in general, while as the conductor of the Mendelssohn Glee Club he has been influentiat in securing due recognition for the class of music to which the works mentioned above belong. Of the two compositions from his pen, "The Music of the Sea." is the deeper and more expressive. It was admirably sung, especially noteworthy features of its interpretation being the fine crescendo on the four lines beginning. "And the stars came forth to listen," and the "montonous undertone" which is heard "sadly and unceasing" throughout the second division of the Work. The listener who contrasted the singing of "The Music of the Sea," with the spirited rendering of Mondelssohn's "Waken Lord and Ladies Gay" could not fail to find the promise of a bright future for this young club.

Ovide Musin played the quaint and pretty variations of Tartini on a Gavotte by Coroll, and two pieces for violin without accompaniment, and with the purity of tone and finished execution which are characteristic of his parformances. Mile Zeite de Lussan, by her earnest and expressive singing, saved an aria by Pacini from monotony, and enhanced the beauty of an Elégie by Massenet.

Herr Sonnenthal was greeted in his fourth performance with the same large audience that has welcomed him on every night thus far of his engagement. There was hardly a vacant sent in the Thalia, and many occupied the standing space. The play was "Fabricius's Daughter." and its general outline was identi-

PATERSON. March 12.—A twenty-eight-hour skaing match, which began at 8 o'clock last night, ended at 10 o'clock to-night. Of eleven starters only three were in at the finish. The score of six was small. William Carleugh dropped out at 105 miles. Zeno Crown surrendered at 125 miles, and was taken home in a hack. Richard Hernandez was curried out on a stretcher, with 175 miles to his credit, George Taylor, a boy, won first prize with 181 miles.

## Sporting Notes. Setters and Scotch collies are taking the place of toy

nests only, but, in connection with other pathological and clinical data, I regard their presence as highly significant.

Marked multiformity in the shape of the epithelial elements was another of the important findings in the specimens under examination, while distinct evidences of cell proliferation were seen in the majorghand layer. By the lobulated appearance of the spithelial mass referred to above is indicated a tendency of the new feel formation to burrow into the deeper parts of the underlying tissue. Extravassations of blood were also found among the epithelia. This condition I regard as pointing to a low vitality of the newly developing growth, and cell dissolution, leading to rupture of the capillary blood channels, by which their contents escape into the surrounding tissue.

Finally, in was found.

Here of a summary, then, the more or less tobulated appearance of the epithelial mass, the actual existence of some "cell nests." the great diversity in the shape of the cell elements, the marked evidences of epithelial proliferation, and the peculiar appearance of the stroma warrant the diagnosis of epitheliams of the squamous variety.

This conclusion has been strived at, after the greatest possible care had been taken to exclude all possibilities of error, after an exhaustive study of every detail, with a knowledge of the clinical history of the case, and this, too, with a mind anxious only to find microscopical activence that the disease was of a being or innocent nature.

PARTS, March 12.-Admiral Lespes telegraphs from Kelung, under date of March 8. that Col. Duchespe, at the head of 1,300 French began on March 4 an attack on the Chinese who were stationed along the hilly country bordering on the road to Tansal. He suceseded in driving the Chinese from all these positions and cleared them from the line of the positions and cleared them from the line of the road, inflicting upon them heavy losses and capturing from them many rifles and flags. The conduct of the French soldiers during the engagements is described as admirable.

The loss of the Chinese in their defence of the positions around Kelung, which were besieged and captured by the French was about 1.200. The French troops captured two cannon and many military stores at Kelung.

A great council, to assemble at Fekin, is announced for the purpose of deciding the question of peace or war. The various Viceroys will be present and report the feeling of the people on the subject.

Further advices from Gen, Briere de l'Isle in relation to the Chinese defeat at Thuyenquan say that the Chinese troops numbered at least 20,000. They retired over wooded ground in the direction of Thuyenquan. The enemy had skilfully laid a number of immonse mines, the explosion of which frustrated the assault by Algerian sharpshooters. The total loss of the French forces in the two days fighting was 463, including a number of officers.

DUBLIN, March 12 .- United Ireland, Mr. Par-DUBLIN, March 12.—United Ireland, Mr. Parnell's Irish organ, says that if the leaders persist in
forcing the Prince of Wales to go where he is not wanted, his Royal Highness will have from the Irish people
a reception as cool as ice and just as freezing.
At a meeting of the Loyalist members of the Municipal Council to-day it was resolved to present an address of welcome to the Frince and Princess of Wales
on their arrival here, expressing grantification at the
visit, which, it will say, proves a desire to juit an end to
the neglect from which Ireland has so long suffered, and
gives rise to the hope that it will be only the precursor
of frequent royal visits. The address will also express
trust that a royal residence will be provided in Ireland.

said that he was perfectly willing I should see Gen. Grant; but that he would not consent to my treating him, unless I would submit my remedies to Drs. Markoe, Sands, Douglas, and himself. This I declined to do, as my rèmedies were procured through long research, and are my own. I showed him letters from various physicians recommending patients to me. I told him that I had cured the lather of Dr. D. B. St. John Roosa. He had a cancer of the lip, extending an inch and a half into his mouth. Dr. Barker told me to call at Gen. Grant's house between 24 and 3 o'clock this afternoon. He said that if he was not there himself he would leave a note accrediting me. I went there, and saw Col. Fred Grant. Dr. Barker was not there, nor had he left any note. I told Col. Grant that I had called by appointment of Dr. Barker. He said to said the had seen Dr. Barker that afternoon, and Dr. Barker had not spoken of any appointment. Col. Grant said I must get a letter from Dr. Barker. I told him I had come to New York at my own expense, without hope of glory or money, but simply out of good will to Gen. Grant. He then said he would not allow me to do anything unless the doctors and he himself knew my remedies. I declined to accede to this, and I went away. I have been practising for ten years, although I am not a regular doctor."

Dr. Douglas said last evening that he had had no conversation with Mr. Brown. Dr. Barker had questioned Mr. Brown closely, and formed the opinion that he knew nothing about cancers. Dr. Barker asked him about the case of the late Mr. Talcott, a broker of the Mills building, whom Mr. Brown treated. Dr. Roosa said that his father never had cancer. Of the \$14.00.000 appropriated at the close some time. Of the \$14,000,000 appropriated at the close of the first session of the last Congress there was about \$80,000,000 balance in the Treasury in the latter part of Pebruary. This appropriation was not made until July of 1984, and was not available until August. At that time but a short period remained during which work could be accomplished. A considerable portion of the \$80,000,000 will be used in contracts which have been made, and under which contractors will work during the coming season. A sufficient sum of the money on hand to preserve improvements until another appropriation is made will be reserved wherever it is possible. The army engineers say that the Mississiphi River will be the greatest sufferer because of the fediture of Congress to make an appropriation. There was available at the beginning of the present year but about \$500,000 for continuing the improvements on that river.

F. Shrady, was at the consultation of physicians held on Sunday, makes this report of the case:

At that time the general condition of the distinguished patient was quite feeble, sithough he was able to walk across his library and seat binself in the chair for the necessary examination of his throat. The latter was possible without giving him pain. It was found that the ulceration of the posterior pillar of the right fances had extended and that the perforation at the base of the anterior pillar had increased, so that its internal edge was converted into a small bridle of tassue. The cutres soft paints was uniformly reddened and swollen, and the right posterior border of the torgue was indurated from a point just in front of the anterior pillar of the fances as far back as could be reached by the finger. The gland under the right angle of the jaw was still enlarged and hard, but quite movable.

The pall includent of the surfiely disappeared, and there any marked sativation. The most grateful local application to the throat next to the spray of a four percent, solution of cocaine was that of a hot solution of sait and water, in the proportion of five parts to the thousand, used occasionally as a gargie.

The patient complained that his sleep was irregular and fitful, and that he was thereby converting hight into day. Codeine in grain doses was accordingly recommended as the anodyne; otherwise no change in the general treatment was suggested. The local applications employed by Dr. Douglas were fully enforced. The previous diagnosis of the disease of the throat was unanimously confirmed.

The administration of the anodyne was subsequently attended with the good result of securing five hours of uniterrupted slumber at a time. In the course of the following three days the effect was most on marked, and another the considerable portion of its left side a triangular-shaped, sharply-defined granular exuberance, which has an unimous appearance. HARTFORD, March 12.-Mr. Goodwin, Hartford, March 12.—Mr. Goodwin, the member of the House from Salisbury, is known all over the western part of the State as "Farmer" Goodwin. He is a brainy man, but eccentric. He takes the opposite side on railroad matters from that taken by his namesake Goodwin of East Hartford, the thornin-the first man. This moon he strolled fitto the office of the hearings are held, and wanted to know if there had been any deaths in the family. He wondered that the legislative committee was not worn out with the presence of the other Goodwin. "He means well enough," he said, "but he is a orank. He's followed this thing up for years, and he grows worse and worse. If he keeps on at the rate he's been going he'll get into the lunatic asylum at Middletown before I do."

WASHINGTON, March 12.-Gen. Hazen to-day admitted that in his annual report of Oct. 15, 1884, he said that after the return of the relief party sent north

measure disappeared, and there is now occupying a considerable portion of its left side a triangular-shaped, sharply-defined granular exuberance, which has an ouninous appearance.

The ulcerative process in the anterior pfilar has since the consultation extended to the adjoining side of the tongue, and the bridle of tissue, bounding the perforation of the anterior pillar internally, gave way on Wednesday. During Thursday the patient was in a reasonably comfortable state, instemperature was normal and his pulse regular, but he was suffering somewhat from the effects of insomina. His digestion is good, and semi-aolid food is taken easily and with a reasonable relish. He suffers no pain.

In the face of all these general symptoms the local difficulty has markedly increased, and the parts in the vicinity of the ulcerations are becoming more inflirated.

Dr. George R. Elliott, who made a micro-acopical examination of a bit of tissue cut from Gen, Grant's throat, has written a report, in which he says:

Preliminary to cutting off any of the diseased tissue the throat was sprayed with a four per cent solution of the hydrochiorate of cocaine, which allayed, to a great extent, the irritability of the affected tissue. A piece about as large as a small pea was then removed by Dr. F. C. Riley from the ulcerated edge of the posterior pillar of the fauces. The removal took but a moment, and gave the patient little discomfort.

I found that the tissue examined was composed largely of epithelial elements, grouped frequestly under the form of distinct lobules. The sells forming these by the lates of the posterior pillar of the fauces. The removal took but a moment, and gave the patient little discomfort.

William Donovan, the winner of the six days' skating contest in New York, is 17 years of age, a shownaker by trade, but has worked little since the introduction of the skating craze. He had entered and won several local short-distance matches, but little was thought of entering him in the six days' go-as-you-please match. Donovan and a few boy chums talked over the six-day contest, and they urged him to enter the race. He said the had nothing to go with, but would try it if he could get an outfit. Thursday, March 12.
The stock market opened irregular, with the principal changes over night in St. Paul, which was i lower, and in Northwestern, which was i higher. During the first hour or so prices was it lower, and in Northwestern, which was it higher. During the first hour or so prices were steady, but upon more pacific advices from abroad they began to yield. The afternoon saw free realizing in the Granger stocks and trunk line securities that depressed the entire list. The weakness in the Grangers was intensified by the circulation of an apparently officially denied, that the dividend for the present quarter upon Omaha preferred would not be paid. That stock broke 3 went, upon the publication of the statement referred to, and closed 1% lower. The feature of the day was St. Paul, which supplied one-fourth of the total transactions, and closed 2% went, lower at nearly the lowest figures. Lackawanna lost 1 went, and Northwestern nearly as much. New York Central was heavy throughout the day, but recovered 5 went, toward the close, so that, with the majority of the other active stocks, it closed only fractionally below last night's final figures. Western Union, Union Pracific, Northern Pacific preferred, and Pacific Mail held up the best of any, and the last named gained is fraction. The close was steady at about the lowest prices recorded.

Closing prices compare with those of yesterday as dollows:
